November 2009

I don't know about you, but October was a blur and November does not look much better. Been doing a lot of traveling and I have met many hams all over the nation. I try to meet with other section and division officials to get some ideas of what is working and not working. We all have the same problems with the economy but we are all seeing a growth in numbers at test sessions and new hams which is very encouraging. Emergency communications and contesting participation is up all around the country. We were praised for our Arizona QSO party organization and participation. We also have been praised for joining the rest of the states in reviving our worked all county award. Good job to all.

NEW HAMS
